### How to achieve an A\*

Students must meet the following requirements:

80% UMS overall (i.e. the current requirements for an A).

90% UMS overall in the A2 units.

Students do not get an A\* for 90% overall.

Only the A2 units (the units taken in Year 14) count towards the award of an A\*.

Can I get A\* at AS level?

No, you can only get it at A2.

### Importance of 'AS' Levels

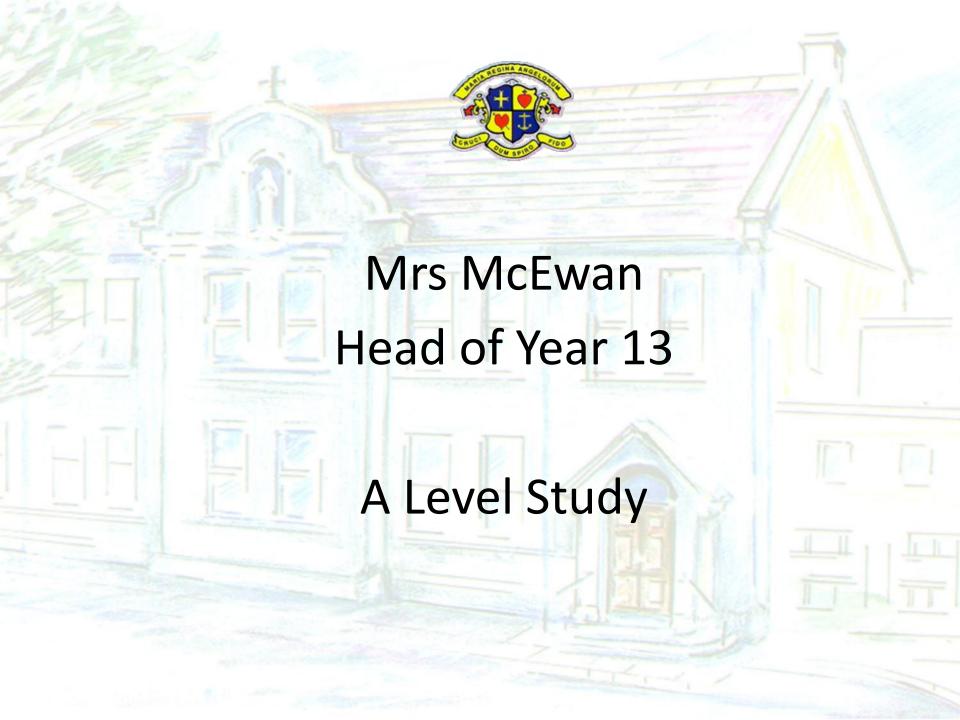

- Platform/gateway for A2
- Predicted grades for UCAS
- University offers based on AS
- Marks generally easier to obtain
- 4 AS = Choice / safety net

### Success in Year 13 depends on:

- Attitude
- Attendance
- Punctuality
- Consistency of effort
- Communication
- Support provided in school page 2 of booklets
- Balance e.g. extra-curricular; PT jobs

### Study Skills

- Refer to Study Skills
   booklet pages 7 and 8
   – for listing of
   examinations.
- Ensure three hours (minimum) per night
- Provide a quiet
   environment conducive
   to effective study;
   organised; resources

- Control of social mediamonitor use of PC/mobile phones/gaming etc. at home.
- Check homework diary on a regular basis for deadlines etc.
- Google Classroom Codes –
   page 9
- Driving lessons not during class time
- Parking permits necessary if bringing a car to school.

### **Practical Advice for Parents**

- Encourage Independent study
- Support and encouragement school events parent's newsletter; website
- Awareness
  - subjects
  - study habits not just homework!
  - examination times
  - module results
- Re-marks be advised student and parental decision – grades may go up but can also go down! The grade / score awarded after a remark is what will remain on the candidates record.

### General points

- AS and A2 Units may be repeated. In this case, the higher mark will be awarded.
- The College covers all examination fees for a student's first entry.
- Student/parents pay for repeat examinations.
- Each module costs £20 -30 approx.
- Avoid re-sits for many reasons.
- Familiarise with specifications/past papers/ model answers/ examiners' reports/ examiners' advice.

- Y13 can be a difficult year pages 4-6 gives guidelines on revision tips and stress management.
- We are a Take 5 school! Please encourage young people to have a good balance.

### **Bonus points for mathematics:**

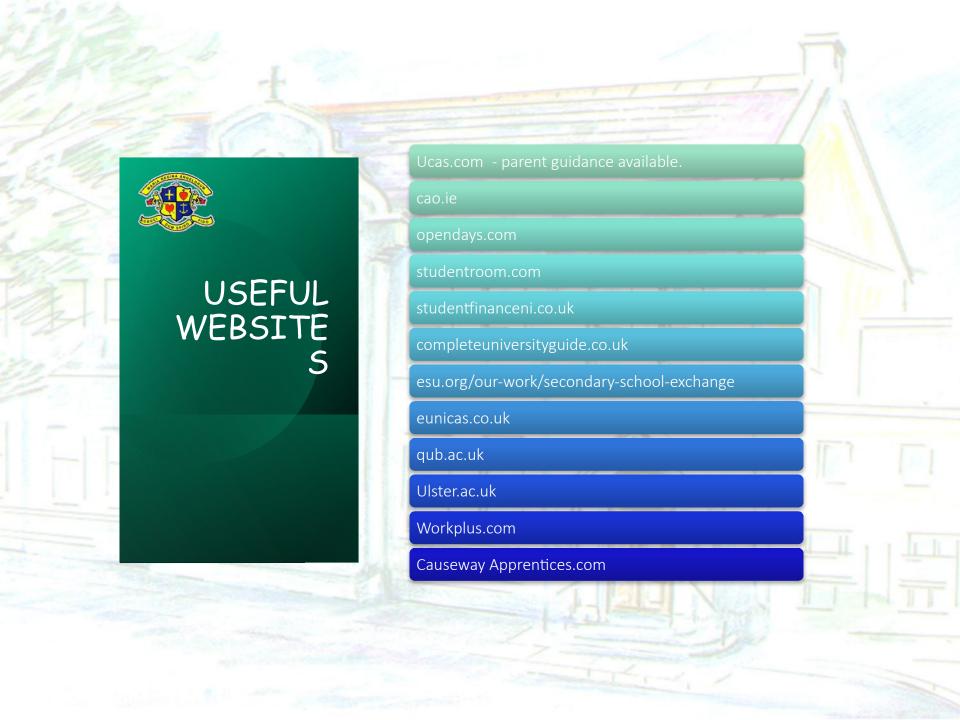

25 additional points will be awarded for a grade E or better in A level Mathematics. This applies to only ONE mathematics subject of the following: Mathematics, Further Mathematics and Pure Mathematics, and only where that subject is used as one of the subjects for scoring purposes. NB Mathematics and Pure Mathematics cannot be counted separately for points purposes.

### Notes:

Applicants are scored on a maximum of 4 different subject results at A and/or AS level/EPQ<sup>1</sup>. For scoring purposes, the following combinations of A Levels and AS Levels are permitted:

- 1. The best 4 A level results in a single sitting. If 4 A-levels are presented, the lowest grade is scored at the lower rate.
- 2. The best 3 A level results in a single sitting, plus the best AS level result from the previous or the same sitting.
- 3. The best 2 A level subject results in a single sitting, plus the best 2 results at AS level from the previous or the same sitting.
- 4. The best 1 A level subject result in a single sitting, plus the best 3 results at AS level from the previous or the same sitting.
- NB Grades in the same subject in A and AS level cannot be combined.

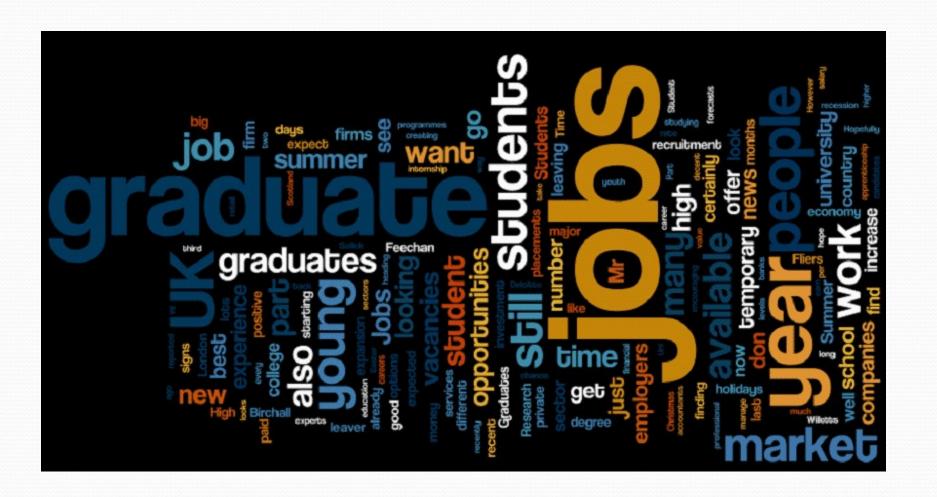

<sup>&</sup>lt;sup>1</sup> Extended project (EPQ) is scored as an AS level (A\* is available in this). Throughout this AS level can be read to mean AS level or EPQ.

### Higher Education – Finance

Mrs S. McCarry

# **University?**

### **Advantages**

- Job prospects
- Opportunity to meet professionals
- Transferrable skills
- Socialising
- Life skills independence
- Further study into an area of interest

### **Disadvantages**

- **♥** Cost
- Not always guaranteed a job
- Might change your mind
- Could slow career progression
- Stress one in four students may experience mental health issues

# University or not?

- Yes IF you think it's the right decision for you! If the dream job doesn't require a degree, then perhaps university isn't the right route. Learn through experience:
- Vocational Courses
- Apprenticeships
- Recruitment programs may run in some companies e.g. internships.

Similarly, struggling with making the leap to independent living and learning, might suggest university is not the path to go – **just yet**! Take time!

Gap year.

# A Degree Costs a lot of Money

### Is it worth it?

### ... Usually!

- Graduates are more likely to be in continuous employment and earn more than non-graduates.
- Research shows that investing in a degree is usually a good investment
  - even on purely financial grounds.

"An investment in knowledge pays the best interest." – Benjamin Franklin

# New analysis shows students who choose to learn more, earn more

Last updated on Tuesday 4 Mar 2025

\*"A university education continues to pay dividends, throughout an individual's career. With exceptionally positive outcomes for students from less advantaged backgrounds, it is clear universities do provide an essential opportunity for individuals to reach their potential wherever you are in the country. We continue to call for an uplift in maintenance support, including grants for those who need them the most.

Vivienne Stern MBE Chief Executive, Universities UK

- Graduates overtake those who chose not to go university within just a few years, earning at least 20% more once they are in their mid-20s.
   By age 31, graduates typically earn 37% more.
- Graduate earnings increase at a faster rate than those of non graduates. Between the ages of 23 and 31 average earnings grow by 72% for graduates compared to 31% for non graduates.
- Graduates aged over thirty are more likely to be in work, and far less likely to be claiming benefits, than those without a degree.

#### **Universities UK 2024**

The cost of university falls broadly into **two** categories:

Tuition
Fees

## **Tuition Fees**

Country of residence	Studying in Northern Ireland	Studying in England	Studying in Scotland	Studying in Wales	Studying in Republic of Ireland (ROI)
Northern Ireland	£4710	up to £9,250	up to £9,250	up to £9,250	€3,000*

\*Tuition fees are not charged in the ROI. All students pay a contribution charge. For the academic year this is  $\leq 3,000$  (students will receive sterling value of £2,587.80).

**Travel Costs** Clothes Living Costs

#### Average student monthly costs...

NB Tuition Fees for England. Scotland and Wales - £9535

#### What support is available?

#### Government Funding

- Maintenance Grant for living costs
- (NON-REPAYABLE)
- Special Support Grant (NON-REPAYABLE)
- Student loans for tuition fees and living costs (REPAYABLE)

#### University

- Bursaries (NON-REPAYABLE)
- Scholarships (NON-REPAYABLE)
- Hardship funding (NON-REPAYABLE)
- Part-time Work
- Help from Family

#### Maintenance Grant

- Non-repayable grant for students from lower income households.
- Helps with everyday costs like food, travel or accommodation.
- Worth up to £3,475 a year depending on household income.
- If your household income falls between £19,203 and £41,065 you may be eligible to receive a partial grant, depending on the level of your household income.

## Special Support Grant

- A Special Support Grant is available to students who have an underlying eligibility to Income Support or Housing Executive Benefits (e.g. if you have a disability or a child) (Also £3,475)
- If your household income is more than £41,065 you will not be eligible to receive a Maintenance Grant or Special Support Grant.

### Student Loans

- The Maintenance Loan is a Student Loan provided by the government, and it's intended to help towards your living costs while attending university...rent, bills, food...
- You apply for the Maintenance Loan through the same process as Tuition Fee Loans and, eventually, you'll make repayments on the two as a joint sum.
- Students from England, Northern Ireland or Wales can all apply for a Maintenance Loan online or by post.
- However, the Maintenance Loan and the Tuition Fee Loan are technically two separate types of funding.

### Maintenance Loans

All eligible full-time students can get a Maintenance Loan, but the exact amount you can borrow will depend on several factors, including

- your household income,
- where you live while you're studying and
- whether you're in the final year of your course.
- It's also affected by any help you get through the Maintenance Grant.

### Maintenance Loan

- You can take out around 75 per cent of the maximum Maintenance Loan regardless of your household income this is called the 'non income assessed' part of the loan.
- Whether you get the remaining 25 per cent the 'income assessed' part of the loan - depends on your household income.

- Maintenance Loans are paid straight into your student bank account in three (almost) equal instalments throughout the year.
- ► Tuition Fee Loans are paid straight to your university.

#### Student Loans for Tuition Fees

- The majority of students take out a Student Loan for their total fees
- Paid directly to the college or university by The Student Loan Company
- No income assessment involved

## Repaying Student Loans

No matter where you're from in the UK, you only start repaying your Maintenance Loan from the <u>April after you've graduated</u>. And even then you'll need to be earning over the repayment threshold for your type of loan.

The current repayment thresholds for UK graduates are:

- Students from England and Wales £27,295 a year (£2,274 a month or £524 a week) before tax
- Students from Northern Ireland £20,195 (£1,682 a month, £388 a week) before tax
- Students from Scotland £25,375 (£2,114 a month, £487 a week) before tax.

## Repayment of Loans

Income (pre tax)	Monthly Salary	Monthly Repayment
Up to £18,330	£1,527	£o
£21,000	£1,750	£20
£24,000	£2,000	£42
£27,000	£2,250	£65
